

Salman Ahmed Khan Front End Developer

 Github  LinkedIn  03105404668  slmkhanahmed@gmail.com

I am a front-end developer passionate about creating clean, functional, and user-focused web experiences. Through self-initiated projects, I have gained hands-on experience in building responsive websites and solving practical challenges with effective solutions.

I bring curiosity, problem-solving skills, and a commitment to continuous improvement, aiming to contribute to impactful and creative projects.

EDUCATION

Intermediate in Computer Science (ICS), Civil College

2024 – present | Rawalpindi, Pakistan

Computer Science Matric, Ideal Cambridge School

2018 – 2020 | Rawalpindi, Pakistan

PROJECTS

GitHub Starred Repositories Search Extension 

August 2024 – October 2024

Developed a browser extension for GitHub to add an advanced search feature within the Starred Repositories lists feature.

This feature was not provided by Github and was requested by a lot of users including me so i made it myself and shared it as an OSS project.

Product Feedback App 

April 2024 – June 2024

Designed and implemented an advanced feedback platform with roadmap planning features.

SKILLS

React.js, Redux, Tailwind CSS, Web Extension, Node.js, REST APIs, Figma, API integration, MySQL, MongoDB, HTML5, CSS, Javascript, GIT, Shell Scripting
